

## **Bronx Borough President**

**Ruben Diaz Jr.** (D, WF)

Hi, I'm Ruben Diaz Jr. I am running for reelection as Bronx Borough President, and I would be honored to have your support. During the last four years, I've put forth a strong agenda in education, health and economic development.

Over the next four years, we will do even bigger and better things — but only with the support of the people of the Bronx.

The most important issue we continue to face is our economy. In my first four years as Borough President, we've taken great strides to bring new business to the Bronx and to make it easier for our existing businesses to stay and grow. We've helped create thousands of new jobs in every corner of the Bronx, while ensuring that those jobs are developed in a green, sustainable way.

My office played a key role in making "Fair Wages for New Yorkers" the law in our City. This forward — thinking legislation ensures that heavily-subsidized projects pay their employees a "living wage."

My record on the economy is clear, and during my next term, we will continue to strengthen our business climate. I will continue my advocacy on the East Bronx Metro-North expansion, which has the potential to completely transform several of our communities by bringing new transportation options to our borough.

As your Borough President, I've funded dozens of our community's public schools, and my office will continue to use our capital dollars to give the children of the Bronx the best possible education. We will continue our focus on environmentally-friendly development.

My office will only fund projects which include a strong "green" component. This has been one of the hallmarks of my administration. What we're doing is working. And we need to do more.

I hope my last four years as your Borough President has earned your support. I am asking for your vote, so that, together as "One Bronx," we can continue our important work for our borough, and build a New Bronx for everyone.
